32. DEC (1)

Fasten off.

Pull up a loop in the next available single crochet on the left side of the first crocheted arm. Repeat steps 1 to 32. Crochet a total of 5 arms. You have now finished part 1 of the starfish (see photo).

Place the safety eyes between rounds 5 and 6, with about 10 stitches in between.

Embroider a small mouth between rounds 1 and 2.

Now make another middle piece with 5 arms: this is part 2 of the starfish. Do not fasten off after the last arm.

ASSEMBLE THE STARFISH

Place part 2 on top of part 1 of the starfish, with the right sides facing outwards. Join both parts together. When crocheting them together, always insert your hook through part 2 first, then through part 1 (see photo).

Join the two parts together using 32 single crochets for each side of the arms and 1 single crochet on the top of every arm. In total, you will crochet 65 stitches per arm $\times$ 5 arms = 325 single crochets to join both parts.

Before closing the final arm, firmly stuff the starfish. Make sure the top of the arm stays empty as you will tie a knot in them.

Fasten off and weave in the ends. Tie a knot at the tip of each arm. Stretch the tip before knotting. First, stretch out the tip well before tying the knot. If needed, insert your crochet hook through the tip; this will make it easier to pull it through the knot.

ENJOY SUNNY!
